

Dr. Ekaterina Pronizius

POSTDOCTORAL RESEARCHER AT UNIVERSITY OF VIENNA, AUSTRIA AND
UCLouvain, BELGIUM.

ABOUT ME

My work centers on self-other distinction, exploring how we perceive, interpret, and distinguish between our own experiences and those of others. Beyond my research, I am deeply committed to big team science and the principles of open science. I believe that collaboration and transparency are the cornerstones of groundbreaking discoveries.

SCIENTIFIC & PUBLIC OUTREACH

In 2024, I organized the Social Cognition Workshop titled "[From Self-Knowledge to Knowing Others](#)" and have been serving on the programming committees for both [Big Team Science](#) and [The Society for the Improvement of Psychological Science](#). From 2020 to 2023, I served as the Vice-President of [Pint of Science](#) (Austria) and co-organized events #pint21-online and #pint22. Additionally, I volunteered at the PhD Symposium 2021 organized by YSA MedUni Wien and participated in the Long Night of Research (Austria).

GLOBAL AND MULTI-LAB PROJECTS

I lead the project "Self-Other Distinction in Patients with Borderline Personality Disorder", a large cross-cultural, multi-center behavioral study. Additionally, I have been a member of the [Psychological Science Accelerator](#) since 2018 and serve as its Assistant Director (and, as of 2024, Associate Director). The Psychological Science Accelerator is a globally distributed network of researchers that pool intellectual and material resources to accelerate the accumulation of rigorous knowledge in psychological science.

Since 2023, I have been a team member in [The Many Manys](#) project and contributed as a data collector for the project "Trust in Science and Science-related Populism," led by Harvard University, USA. From 2022 to 2023, I worked as a research assistant on the project "International Collaboration to Understand Climate Action", led by New York University.
